

Memo To: Carlyn Prisk, USEPA
From: Daston Corporation
RE: Folcroft Landfill
Subject: Frank Halter Interview
Date: February 3, 2003

Nonresponsive based on revised scope
Nonresponsive based on revised scope had received information from two reliable sources that a Frank Halter worked on a part time basis at the Folcroft Landfill in the early 1970s.

On January 20, 2003, Nonresponsive made an unannounced visit to Mr. Halter's residence at (b) (6). (b) (6)(b) (6). Mr. Halter was not home. Nonresponsive was met at the door by Mr. Halter's wife. She asked what this was about. Nonresponsive identified himself and advised Mrs. Halter of the nature of his visit. Mrs. Halter advised Nonresponsive that Mr. Halter works shift work and will be home the following afternoon.

Since Nonresponsive had lost the element of surprise, he contacted Mr. Halter on the telephone and made an appointment to meet with him on January 23, 2003.

On January 23, 2003, Nonresponsive met with Frank Halter at his residence. Nonresponsive again identified himself and advised Mr. Halter that the interview was voluntary. Nonresponsive advised Mr. Halter of the nature of the questions to be asked and was advised by Mr. Halter that he consented to be interviewed, did not have an attorney representing him in this matter and did not want an attorney. No one else was present during this interview and the interview was not tape-recorded.

Mr. Halter advised Nonresponsive that he had contacted the Folcroft Borough manager after Nonresponsive's initial conversation with his wife. He indicated that he had no knowledge of the Folcroft Landfill and had never been to the Folcroft Landfill.

When shown the aerial photograph of the Folcroft Landfill, Mr. Halter stated that he had never been to this landfill and had no knowledge of the landfill.

Mr. Halter stated that he has lived in Folcroft since 1963.

Mr. Halter then advised Nonresponsive that he is currently a Folcroft Borough Councilman and works at the Sunoco Company Tank Farm in Darby.

At that point, Nonresponsive thanked Mr. Halter for his time and ended the interview.

Since Mr. Halter provided no information about the Folcroft Landfill, Nonresponsive did not think an interview summary was appropriate. However, Daston agreed that a record of Nonresponsive's meeting with Mr. Halter should be prepared and submitted.
